

2014 Candidate Survey

CONNECTICUT LEAGUE OF
CONSERVATION VOTERS

- BEFORE YOU COMPLETE THIS QUESTIONNAIRE, PLEASE SAVE IT TO YOUR COMPUTER AND USE THAT FILE TO RETURN TO US.
- Please complete this survey by August 1, 2014.
- Email your completed survey to: ctlcvc@ctlcvc.org

Candidate Name: <u>Kim Rose</u>	
Running for: <input checked="" type="checkbox"/> House <input type="checkbox"/> Senate	District No: <u>118</u> Party: <u>D</u>
Candidate/Campaign Mailing Address: <u>292 Naugatuck Ave Milford CT 06460</u>	
Phone: <u>203-988-2078</u>	Website: _____ Email: <u>Kimr0107@gmail.com</u>
Are you enrolled in the Citizen's Election Fund for public campaign financing? Yes <u>Y</u> No _____	
Do you have a primary? Yes _____ No <u>X</u>	
Are you an incumbent? Yes <u>Y</u> No _____	

Part 1: If elected, what position do you expect to take on the following environmental issues?
Please mark boxes named "Support," "Uncertain," and "Oppose" with an x.

Topic	Question	Support	Uncertain	Oppose
Parks	Would you support state park and forest revenues going to park and forest operations and maintenance rather than to the General Fund?	✓		
Comments:	<i>absolutely, we need to continue to invest in our state Parks, some of our most valuable resources.</i>			
Transportation	CT is one of the 10 states most dependent on federal funds as a percentage of their transportation expenditures. More than half of the states and localities have moved forward on increasing their funding share. Do you favor this and how might we do it in CT?	✓	✓	

Comments: *I need additional information on this. I have not spoken with anyone and am not familiar w/ this issue. ~~There is~~*

Property Tax Reform	CT's property tax burdens small towns, strangles cities, undermines mass transit and drives sprawl. Would you be an advocate on behalf of the environment in the tax reform debate, especially with regards to property tax?	<input checked="" type="checkbox"/>		
Comments:				

Topic	Question	Support	Uncertain	Oppose
Pesticides	The American Academy of Pediatrics and many other science and medical institutions have warned that pesticides (including herbicides) are harmful to human and ecological health. CT has a ban on use of lawn care pesticides on grounds of elementary and middle schools. Would you support legislation to extend this ban to high schools and public parks where children play?	<input checked="" type="checkbox"/>		
Comments: <i>As a member of the Childrens Committee you will find my voting record is supportive of pesticide bans.</i>				
Pesticides	Should towns have more authority to limit or guide pesticide applications within their borders, including roadside spraying and applications of pesticides in wetlands and surface water?	<input checked="" type="checkbox"/>		
Comments:				
Water Source Protection	CT normally uses decades old data for setting standards and guidance for stormwater management. Would you support requiring the state to upgrade its standards using scientifically validated, up-to-date statistics on volumes of water associated with extreme storms and annual precipitation?	<input checked="" type="checkbox"/>		
Comments:				
Microbeads	Many personal care products such as shampoos and toothpaste are being manufactured using tiny plastic microbeads. Once microbeads are washed down the drain, they can enter lakes, rivers, and eventually the ocean through sewage overflows or pass through sewage treatment plants. Microbeads, like other plastics, can absorb toxic chemicals. They can be mistaken for food by aquatic life and can be passed up the food chain to larger fish, wildlife, and humans. Would you support legislation to protect our waterways from this new environmental threat?	<input checked="" type="checkbox"/>		
Comments:				
Conservation Lands	Would you support passing a state Constitutional Amendment to better protect state conservation lands from being given away for non-conservation purposes?	<input checked="" type="checkbox"/>		
Comments: <i>I am a <u>firm</u> believer in protecting conservation land.</i>				

Energy	Would you support policies or legislation to protect and expand the state's cost-effective energy efficiency programs opposing any attempts to raid the CT Energy Efficiency Fund for state budgetary needs?	✓		
Comments:				
Energy	While other states promote shared net metering and sub metering for solar, fuel cell and other distributed renewable sources, CT imposes regulatory barriers that effectively prevent development of these projects in our state. Would you support legislation that removes these barriers and enable clean renewable distributed generation to move forward?	✓		
Comments:				
Toxins	Would you support legislation that requires the Department of Public Health to identify chemicals of high concern to children, manufacturer disclosure of those chemicals and a process for recommendations to reduce exposure?	✓		
Comments: <i>I supported the legislation introduced last session.</i>				

Part 2: What environmental issue has lacked the attention in Connecticut that it deserves? As a legislator, what will you do to change that?

As a member of the Children's Committee I will continue to support bans on toxic chemicals and the use of pesticides. I will also continue to work to expand the prescription take back to include a safe disposal system for CT State

Part 3: What are the environmental priorities in your district? Agencies that currently flush.

My district is bordered by the Housatonic River + LI Sound. I am a firm believer in protecting our waterways. I also have Silver Sands State Park as part of my district.

Part 4: If you are elected, what would be your top environmental priorities for the 2014 legislative session? Please identify up to three and rank the three in order 1, 2, or 3:

- 2 Parks
- Transportation
- 1 Pesticides
- 3 Water Source Protection
- Microbeads
- Conservation Lands
- Energy
- Toxins
- Property Tax Reform

___ Other (please explain)

Comments:

I am proud to have been able to pass my prescription take back program last session as part of the implementation. I believe this bill will help reduce the amt of medications entering our water supplies. I would like to expand on that legislation to include state medical facilities. Facilities such as Southbury Training Center is flushing medications. There is no program in place for safe disposal.

Thank you for your consideration.
