

# 2014 Candidate Survey

- BEFORE YOU COMPLETE THIS QUESTIONNAIRE, PLEASE SAVE IT TO YOUR COMPUTER AND USE THAT FILE TO RETURN TO US.
- Please complete this survey by August 1, 2014.
- Email your completed survey to: [ctlcv@ctlcv.org](mailto:ctlcv@ctlcv.org)

Candidate Name: <u>          Kristen Selleck          </u>		
Running for: <input checked="" type="checkbox"/> XHouse <input type="checkbox"/> Senate	District No: <u>      103      </u>	Party: <u>Democrat</u>
Candidate/Campaign Mailing Address: <u>482A Radmere Rd. Cheshire, CT 06410</u>		
Phone: <u>203-558-1460</u>	Website: <u>facebook.com/SelleckforStateRep</u>	Email: <u>kris.selleck@gmail.com</u>
Are you enrolled in the Citizen's Election Fund for public campaign financing? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> X		
Do you have a primary? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> X		
Are you an incumbent? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> X		

## **Part 1: If elected, what position do you expect to take on the following environmental issues?**

*Please mark boxes named "Support," "Uncertain," and "Oppose" with an x.*

<i>Topic</i>	<i>Question</i>	<i>Support</i>	<i>Uncertain</i>	<i>Oppose</i>
<b>Parks</b>	Would you support state park and forest revenues going to park and forest operations and maintenance rather than to the General Fund?	X		
<b>Comments:</b>				
<b>Transportation</b>	CT is one of the 10 states most dependent on federal funds as a percentage of their transportation expenditures. More than half of the states and localities have moved forward on increasing their funding share. Do you favor this and how might we do it in CT?	X		

<b>Comments:</b>			
<b>Property Tax Reform</b>	CT's property tax burdens small towns, strangles cities, undermines mass transit and drives sprawl. Would you be an advocate on behalf of the environment in the tax reform debate, especially with regards to property tax?	X	
<b>Comments:</b> Property taxes, being regressive and hurting our workers as well as our environment. I would advocate strongly to reduce our property tax and correct our tax liability system.			

<i>Topic</i>	<i>Question</i>	<b>Support</b>	<b>Uncertain</b>	<b>Oppose</b>
<b>Pesticides</b>	The American Academy of Pediatrics and many other science and medical institutions have warned that pesticides (including herbicides) are harmful to human and ecological health. CT has a ban on use of lawn care pesticides on grounds of elementary and middle schools. Would you support legislation to extend this ban to high schools and public parks where children play?	X		
<b>Comments:</b> This is an environmentalX and public safety issue that I will support.				
<b>Pesticides</b>	Should towns have more authority to limit or guide pesticide applications within their borders, including roadside spraying and applications of pesticides in wetlands and surface water?	X		
<b>Comments:</b>				
<b>Water Source Protection</b>	CT normally uses decades old data for setting standards and guidance for stormwater management. Would you support requiring the state to upgrade its standards using scientifically validated, up-to-date statistics on volumes of water associated with extreme storms and annual precipitation?	X		
<b>Comments:</b>				
<b>Microbeads</b>	Many personal care products such as shampoos and toothpaste are being manufactured using tiny plastic microbeads. Once microbeads are washed down the drain, they can enter lakes, rivers, and eventually the ocean through sewage overflows or pass through sewage treatment plants. Microbeads, like other plastics, can absorb toxic chemicals. They can be mistaken for food by aquatic life and can be passed up the food chain to larger fish, wildlife, and humans. Would you support legislation to protect our waterways from this new environmental threat?	X		
<b>Comments:</b>				
<b>Conservation Lands</b>	Would you support passing a state Constitutional Amendment to better protect state conservation lands from being given away for non-conservation purposes?		X	
<b>Comments:</b> I would want to work for protecting conservation lands. I would want to know more about the process of amending our constitution in order to do it.				

<b>Energy</b>	Would you support policies or legislation to protect and expand the state's cost-effective energy efficiency programs opposing any attempts to raid the CT Energy Efficiency Fund for state budgetary needs?	X		
<b>Comments:</b>				
<b>Energy</b>	While other states promote shared net metering and sub metering for solar, fuel cell and other distributed renewable sources, CT imposes regulatory barriers that effectively prevent development of these projects in our state. Would you support legislation that removes these barriers and enable clean renewable distributed generation to move forward?	X		
<b>Comments:</b> This is necessary for our environment, our infrastructure and our long term sustainability in this state. I would support this wholeheartedly.				
<b>Toxins</b>	Would you support legislation that requires the Department of Public Health to identify chemicals of high concern to children, manufacturer disclosure of those chemicals and a process for recommendations to reduce exposure?	X		
<b>Comments:</b>				

**Part 2:** What environmental issue has lacked the attention in Connecticut that it deserves? As a legislator, what will you do to change that? I think there are various things that have been less attended to that are important. However, I think by focusing on green jobs, we address environmental protection/well-being as well as our job market. We're not doing enough to complete in this growing market that has numerous benefits to our state economically as well as environmentally. I'd also like to see environmental justice talked more about.

**Part 3:** What are the environmental priorities in your district? In this area, we need to protect open space areas, ensure access to solar or other energies, make energy costs affordable through access to alternative energies for small businesses.

**Part 4:** If you are elected, what would be your top environmental priorities for the 2014 legislative session? Please identify up to three and rank the three in order 1, 2, or 3:

\_\_\_\_ Parks

- Transportation
- 3 Pesticides
- Water Source Protection
- Microbeads
- Conservation Lands
- 1 Energy
- Toxins
- 2 Property Tax Reform
- Other (please explain)

**Comments: Preserving our environment has to be the core issue facing us as a country, let alone as a state. These are all important priorities and I would work strenuously on all of them.**
